PROFESSIONAL SUMMARY

B.E. Artificial Intelligence & Machine Learning student with a CGPA of 9.0/10.0 and hands-on experience in AI/ML applications, frontend development, full-stack systems, and API-driven web applications. Proficient in Python, React, JavaScript/TypeScript, Flask/FastAPI, databases, and AI APIs. Experienced in building AI-powered applications and contributing to hackathons involving agentic AI, disaster-relief coordination, recruitment, healthcare, and business entity resolution. Also have 2 years of freelance experience in video editing and graphic/poster design.

EDUCATION

A.J. Institute of Engineering & Technology (AJIET), Mangaluru — VTU
B.E. in Artificial Intelligence & Machine Learning | Expected May 2028 | CGPA: 9.0/10.0

Pre-University: B.G.S Composite PU College — Karnataka PUC: 83.16%
SSLC: Noble English Medium Higher Primary School — Karnataka SSLC: 89.96%

TECHNICAL SKILLS

Programming: Python, C, C++, Java, JavaScript, TypeScript, SQL, HTML, CSS

Frontend: React, Tailwind CSS, Bootstrap, Vite

Backend & APIs: Node.js, Express.js, Flask, FastAPI, REST APIs

AI / ML: Machine Learning, Natural Language Processing, NumPy, PyTorch, TensorFlow

AI Platforms: Google Gemini API, OpenAI API, Hugging Face

Databases: MySQL, MongoDB, Firebase, Supabase

Tools & Cloud: Git, GitHub, VS Code, Vercel, AWS

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Problem Solving

PROJECTS

NeighborAid — AI-Powered Community Coordination Agent | Python, Strands Agents SDK, AWS, React, SQLite, Git/GitHub

- Built an end-to-end AI-powered community coordination application to understand requests, reason over workflows, use tools, assign volunteer tasks, track progress, and escalate unresolved cases.
- Developed the workflow from request submission through classification, volunteer matching, task assignment, notifications, status monitoring, and human escalation.

AlgoRhythms — AI Interview Agent | React, Vite

- Developed the frontend for an AI interview application with reusable React components, interview interfaces, responsive user flows, and dashboard views.

SevaSphere — AI Disaster Relief Coordination Platform | React, Tailwind CSS, Firebase, Google Gemini, GDACS API

- Contributed to frontend development, dashboard interfaces, authentication, and workflows supporting users, volunteers, and operational information.

Pathfinder AI — Recruitment Matching Platform | React, Python, Flask, SQLite

- Contributed to a role-based recruitment platform featuring resume ingestion, candidate shortlisting, career roadmaps, and AI-assisted matching workflows.

HealVision — AI-Powered Healthcare Assistant | React, TypeScript, Google Gemini

- Developed the frontend for an AI-powered healthcare application, focusing on user interface, interaction flow, AI-assisted guidance, and image-based analysis.

Tealogy Café — Business Website | Web Development

- Built a business website for a café, translating business requirements into a usable digital presence.

HACKATHONS & COMPETITIVE EXPERIENCE

Amazon ML Challenge 2026 — Amazon — Team Member | AI/ML Contributor; worked on the Business Entity Resolution Challenge involving candidate generation, entity matching, evaluation, and submission pipeline development.

Bharatiya Antariksh Hackathon 2026 — ISRO × Hack2Skill — Team Member | Contributed to the team's prototype in a national-level space-tech innovation challenge; successful idea submission.

Solution Challenge 2026: Build with AI — Google — Team Member | Contributed to development and integration of the team's AI-powered prototype; successful prototype submission.

ANVIL 2026 — Scaler School of Technology — Team Member | AI Contributor in a 24-hour national hackathon.

Agents for Humans Hackathon — AWS — Team Member | Frontend & Integration Contributor; contributed to frontend development and supporting integrations.

All Things Agentic — Google Cloud & Gemini — Team Member | Frontend & Integration Contributor to the team's agentic-AI prototype.

NEXATHON 2025 — Shree Devi Institute of Technology — Team Member | Frontend Contributor in a 24-hour hackathon.

HackFest ’26 — NMAM Institute of Technology — CTF Participant | Solved technical challenges in a time-constrained Capture The Flag event.

HackIndia Spark 6 @ NIT Delhi — Team Member | Selected among the Top 150 teams from 1500+ teams.

CERTIFICATIONS

• AI/ML for Geodata Analytics — Indian Institute of Remote Sensing (IIRS), ISRO — 2026

• Student Chapter Membership — Institution of Engineers (India) — Valid through 2028

FREELANCE EXPERIENCE

Freelance Video Editor & Graphic/Poster Designer | 2 Years | After Effects, Photoshop, Canva, CapCut, Lightroom

- Delivered freelance video-editing and graphic/poster design work using professional creative tools, combining visual design, editing, and client-oriented execution.
